

## Sage eCommerce:

# Intelligent eCommerce for Your Business

Sage is an integral part of your operation. It's what you've built your business upon. With digital transformation taking hold, you're now looking at eCommerce solutions to help drive incremental revenue, increase margins, and improve operating efficiencies. To maximize your investment in Sage it only makes sense to use an eCommerce solution that fully integrates...right from the start.

Sage eCommerce is the world's only certified eCommerce solution fully integrated with Sage. We enable you to seamlessly extend your Sage platform to the world of eCommerce with secure and real-time connectivity. For you that means no disconnected databases, no manual re-entry of orders, and no costly integration projects that inevitably go over budget and over time. Now that's Intelligent eCommerce for your business.

Sage eCommerce provides you Intelligent eCommerce three ways:

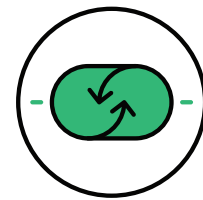

### Insightful

Delivers real-time insight & analytics, providing you with comprehensive visibility across your entire eCommerce operation.

### Intuitive

Built-in responsive design templates allow you to extend your business and brand online, all managed through the easy-to-use eCommerce Console.

### Integrated

Sage eCommerce is a seamless extension of your Sage platform allowing you to streamline your online business processes for fast ROI.

Sage eCommerce drives incremental revenue and improves operating efficiencies with:

Full Integration	Purpose built for Sage, the Sage eCommerce platform is already fully integrated with your Sage solution with real-time connectivity.
Ease of Implementation	A Sage eCommerce site can be set up in a matter of hours and is built for business users, not programmers.
Responsive Web Design	Site designs that reinforce your brand and scale to any device and any browser.
Flexible eCommerce Feature Set	Sage eCommerce includes a rich list of standard, configurable eCommerce features that can be added without the need for additional customization.
Data Accuracy	Have the confidence knowing that your order, inventory, and pricing data is always correct on your Sage eCommerce platform.

If it isn't Integrated eCommerce, it isn't Intelligent eCommerce

Unlike open source eCommerce solutions that require heavy customization and complex integration to support your business operations, Sage eCommerce is fully integrated with your Sage platform, right from the start.

1. Cost-effective to maintain, delivering you a fast ROI on your investment
2. Seamless, easy-to-use, and simple to manage, allowing your staff to focus on higher value initiatives
3. No separate database means you don't need to worry about tedious and error prone data re-entry
4. Quicker and more secure than open source solutions with real-time connectivity
5. An eCommerce solution that scales with your business without future customization

Why Sage eCommerce?

Sage eCommerce delivers a robust and scalable eCommerce solution to help you drive incremental revenue and improve operational efficiencies, making your business more competitive.

- Mimics your pre-defined business logic in Sage
- Always accurate inventory management
- Out-of-the-box real-time two-way integration

- Real-time orders and payments integration
- Cost effective to maintain for fast ROI
- Anywhere, anytime access for remote teams
- Deep reporting capabilities
- Built-in responsive web design themes
- Scales as your business grows

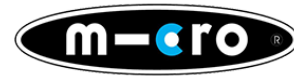

## What do Sage Customers have to say about Sage eCommerce?

*“Our Sage eCommerce solution provides just about the best ROI of any application we have implemented.”*

Mike Grilli  
Batteries Expert

*“The lack of integration between our website, back office, and warehouse was resulting in errors hindering growth. The clean integration with Sage eCommerce improved both our profitability and efficiency.”*

Jeremy Brown  
Micro Mobility
